(Eligible to work in the EU, ready to relocate)

Summary

Professional with 7+ years of experience in e-commerce and EU marketplaces, focused on building long-term client relationships, onboarding, and adoption of SaaS products. Main point of contact to translate business goals into scalable execution.

Deliver ERP and omnichannel implementation, which improved operational efficiency by 20% and reduced operational expenses by 30%. Client-oriented approach with regular analysis of performance, identifying growth opportunities, and resolving operational challenges, contributing to double-digit account growth and improved long-term retention.

My customer-oriented approach with strong communication helps to navigate across product, engineering, and commercial teams. Comfortable operating in complex environments, supporting customers, and building trusted, long-term relationships. Fluent in English, Polish, German, native in Russian and Ukrainian.

Key skills and tools: Customer management, account management, clear communication, onboarding, client relationship, data-driven, analytical, customer-oriented, stakeholder management, cross-functional teams, dedicated, self-motivated, product implementation, SQL, Excel, ChannelEngine, Jira, JTL-WAWI, Salsify, Tableau, DBeaver, ERP, PIM

PROFESSIONAL EXPERIENCE (7+ years of experience):

Account Manager, Commercial

01.2024 - present, Berlin

Razor Group | Nr 1 Marketplace aggregator in the world

Key achievement: Unified marketplaces into one omnichannel platform, automated operations, and boosted team efficiency. Created SOPs for faster onboarding, generating €1M+ in 3 months, and cutting costs by removing redundant software.

- Leading >10+ marketplace accounts overseeing P&L, tracking and analyzing performance metrics, ad spend, strategic expansion, and price strategy to drive sustainable growth.
- Growing EU marketplaces, generate >€1M in the first 3 months, and collaborate with cross-functional teams to meet sales targets.
- Improved operational efficiency by 20% by implementing ERP ChannelEngine with PIM Salsify for the EU market.
- Automated processes to deliver fast insights on product performance and stock levels, enabling quick decisions on ad spend and restocking.
- Managing P&L and optimizing revenue streams, implementing price, promo, and expansion strategy.
- Negotiating with service providers on terms and prices, reducing selling fees on marketplaces, and monthly fees, and last-mile negotiations with carriers.

Business Development & Account Manager, Commercial

10.2019 - 12.2023, Berlin

KIDSMONT GmbH | Product developer of know-how Montessori furniture for children

Key achievement: Built the company's e-commerce department into a recognized brand, generated €1.5M in the first year. Implemented complex automating processes and led a lean, cross-functional team. Led special project acquiring new clients, generated additional revenue streams. Acquired 20+ clients, built long-term relationships, and maintained 20% retention through proactive client communication.

- Acquired 20+ clients, with a 80% retention rate
- Identified, prospected, and engaged potential clients via targeted outreach
- Integrated software on the customer side and provided onboarding and documentation
- Upsell services to the clients, tracked sales performance, and KPIs to drive business growth
- Built and led a strong cross-functional team and negotiated with vendors over prices and services
- Implemented integration of ERP JTL-WAWI, automated and digitalized business processes, improved operational efficiency, and saved 30% of the budget in operational costs
- Increased revenue by 20% in 6 months by implementing customer-focused strategies, which helped to reduce the return rate and increase customer satisfaction
